AUDITORS' REPORT

Plymouth, New Hampshire

February 20, 1946

In accordance with the vote taken at the annual town meeting in March 1945, we have made a complete audit of all the books and records kept by the Selectmen, Town Treasurer, Town Clerk, Tax Collector, Overseer of the Poor, Road Agent, Trustee of Trust Funds, Treasurer of Library Trustees, and Justice of the Municipal Court.

SCOPE OF AUDIT

We verified cash balances and reconciled bank statements for all officials having bank accounts. The individual entries for all expenditures were verified by checking on authorization and comparing cancelled checks for all amounts with vouchers and accompanying invoices and payrolls. We checked payrolls to see that they were properly signed. Column totals, extensions, page footings were checked for each set of books and proven.

In addition to auditing the books of various officials we prepared or approved statements showing the financial condition of the various departments and the results of operation for the year. We believe that our signed statements correctly show the facts of the audited books.

The securities of the trustee of trust funds were submitted for examination. All funds are invested in U. S. Government Bonds or deposits in the Plymouth Guaranty Savings Bank. Detailed receipts and expenditures appear in the report of the trustee.

We examined the surety bonds of the town treasurer, tax collector, town clerk, trustee of trust funds, and road agent, and found that these officers were properly bonded.

In all cases involving inventories, we made no attempt to take a physical inventory. Schedules sub-

mitted to us by various officers were accepted without verification.

We burned one \$600.00 Town of Plymouth Bridge Bond, No. 12, and 18 interest coupons totalling \$216.00.

RECOMMENDATIONS

We recommend that all invoices and original signed payrolls be attached to vouchers to facilitate proper auditing in the future.

In order to avoid an accumulation of errors and subsequent adjustments at the end of the year, it is suggested that page totals be verified before carrying totals forward.

N. L. SAMAHA,

R. J. ERNST,

Auditors.

AUDITORS' REPORT

Plymouth, New Hampshire

February 28, 1946

We have audited the books of the treasurer of the Plymouth Fire District and Plymouth Village Water Department.

We verified the cash balances and reconciled the bank statements. Individual entries for all expenditures were verified by checking on authorizations and comparing cancelled checks for all accounts with vouchers and accompanying invoices and payrolls. We checked payrolls to see that they were properly signed. Signed payrolls were found but some original invoices were missing.

Column totals, extensions, and page footings were checked and proven for each set of books.

In addition to auditing the books of the treasurer, we have audited the reports of the treasurer of Fire and Sewer Departments. We believe that our signed statements correctly show the facts of the audited books.

We examined the surety bond of the treasurer and find that he is properly bonded.

We burned four Plymouth Village Fire District Refunding and Sewer Bonds, Nos. 21, 22, 23, and 24, totaling \$4,000.00. We have also burned interest coupons totaling \$1,300.00.

We recommend that all invoices and original signed payrolls should be attached to vouchers to facilitate proper auditing in the future.

REPORT OF SCHOOL NURSE

To Plymouth School Board:

I herewith submit my report of school nursing from September 1944 to July 1945.

Number of children inspected	584
------------------------------	-----

Symptoms of defects found:

Dental	143
Enlarged glands	18
Tonsils, enlarged or diseased	56
Vision	34
Underweight	11

These corrections were reported made:

Dental	279
Tonsil operations	32

Vision—23 new glasses; 33 lenses changed. Six children had examination and glasses paid by Sight Conservation Program of the State.

Due to the cases of infantile paralysis occurring in the summer months some parents postponed tonsil operations, under advise from their family physician. It is hoped that these can be taken care of this spring.

The audiometer test was given in December to children from the third grade through the last year of high school.

Plymouth Red Cross helped finance 27 dental cases treated at the local dentists offices. The rest of the dental corrections were made through appointments made by parents.

Several children had examinations and X-rays through the New Hampshire Tuberculosis Chest Clinics.

The usual program of weighing, measuring, inspection, health classes, and correction of defects was carried on.

No childhood communicable diseases were reported from September 1944 to June 1945. There were, however, colds, 8 cases of virus pneumonia, 10 skin cases and pediculosis.

Hot lunches were served at high school and milk in the grades.

A class in Home Nursing was held for the Girl Scouts.

Inspection and weighing and measuring was again done in the Fall of 1945.

Children inspected	515
71 have not been done yet.	

Symptoms of defects found:

Dental	93
Vision	37
Tonsil	49
Enlarged glands	11
Underweight	13
Orthopedic	2

These corrections have been reported made since school closed last June.

Dental	129
Tonsils	10
Vision	40

Hot lunches and milk are again being served in the schools.

There have been reported 90 cases of chicken pox, 9 of mumps, and 2 of scarlet fever.

Again I take this opportunity to thank parents, teachers, Superintendent and School Board for their interest and help in the Health Program of the school.

Respectfully submitted,

ANNA M. LOVETT, R. N.;

School Nurse.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Plymouth School Board:

My third annual report as your superintendent of schools presents school facts and suggestions for your consideration and the information of people of Plymouth.

As you well know the only elementary school over which I have direct supervision is the Sargent School. Major phases of control of the New Grade School are assigned by contract to the Teachers College with only certain statutory responsibilities remaining to the superintendent.

Sargent School work is progressing very satisfactorily under the able direction of Mrs. Martha Keniston. Children are being thoroughly taught the common school branches and, equally important, they are learning valuable lessons in real community living. The textbooks and instructional materials given them are as modern and acceptable as they would find if they were enrolled in a city school system. Regular music instruction is likewise provided. There is no lessening of educational offerings because Sargent is a small rural school.

Problems frequently arise in the use of the New Grade School auditorium or gymnasium. During the cold months the principal use is for high school basketball practice and games. On each school day except when games are scheduled high school groups occupy the floor from three-thirty until well after six o'clock. Naturally, grade school pupils also want to have regularly scheduled periods after their school hours but the time from closing until three-thirty is very short. It would, however, be possible for both boys and girls to have some time if details of direction and supervision can be worked out. Such supervision is absolutely necessary if gymnasium periods are to be anything more than disturbance and free-for-all disorder.

School board desire to make the facilities of the building available for public use has always been commendable. But here again difficulties appear. A floor that is suitable and safe for basketball is not acceptable for dancing. Whenever the stage is needed, the heavy basketball cage must be taken down and later set up. That operation has been repeated until it is now only a question of time when danger will be a factor. Furthermore the cost of heat and lights makes a heavy demand on the school budget. These are points which must be carefully considered by the board when the budget is prepared and later administered.

The School District generously voted to give the School Board the amount of money requested last March to employ a full time physical education teacher. Because of war conditions such positions could seldom be filled and then only at a cost which was unjustifiably excessive for us. In October Philip Tapply, a returned veteran completing his college course in Plymouth, was elected as coach of football, basketball and baseball for the school year of 1945-1946. It is hoped that the physical education program can be organized for the coming school year. If that is done we should be able to overcome most of the problems relative to scheduling the supervision previously mentioned.

A comparison of teacher lists for the two school years of 1944-1945 and 1945-1946 shows extensive changes among the teachers in both elementary and high school groups. For the current school year we have six high school teachers who are new comers to the faculty. It is my belief that a nearly fifty per cent change in personnel has resulted in remarkably little inconvenience in school operation. Plymouth was more fortunate than many other towns in being able to start the school year with no vacancies.

Our own experience, as well as that of other school districts, seems to indicate the desirability, if not the absolute necessity, of adopting a carefully framed salary schedule. The time has come when we should be able to draft a schedule that will not be subject to frequent emergency revision and that will be definite and fair to both contracting parties.

Increased teacher participation in policy and procedure determination is helpful. Last June our high school teachers were asked to state their objectives in the subjects they taught and to make suggestions growing out of their experience. The contributions they made were valuable and will find a place in future plans for the high school.

At the beginning of the school year, school board approval was given to a marking system to be followed by all high school teachers in ranking pupil work. The provisions of that system are here stated:

- (1) Daily work counts three-quarters and written tests count one-quarter for each marking period.
- (2) No passing mark will be given in a subject for any period unless the test average is at least forty-five per cent.
- (3) At least one written test must be given in each academic subject every six-weeks period.
- (4) Proof of cheating in a test will result in a zero rank with no opportunity for a make-up.
- (5) Work passed in after it is due will be penalized by a loss of 10 points for the first day and an additional 15 points for the second day.
- (6) No work will be accepted for credit if it is more than two days late.
- (7) Work lost through absence must be made up in a manner acceptable to the teacher.
- (8) Excessive unexcused absence or tardiness may result in a pupil's being dropped from school.

As may be supposed, the purpose of this marking system is to produce higher scholarship, develop habits of punctuality, secure uniformity of practice, make pu-

pils appreciate that school is a real business and to elevate the scholastic standing of our school. Some people will maintain that standards and work should be easy enough to permit every child who so desires to complete a high school course. Others as stoutly maintain that while every child should have the opportunity to go to high school individual interest, ability, industry and aptitude must be the final determinants of completion of a high school course. My own sympathies are with the latter group. Not all who aspire to become doctors, lawyers, machinists, aviators or engineers can meet the standards set for a realization of their ambitions. In these fields there is no serious thought of lowering standards to the point where everyone can wear the label of his choice. It is equally absurd to set school standards purposely at a level which assures success for all who enroll.

A handbook for pupils is in preparation for use in the fall when school opens. It will contain information and assistance which is designed to promote better school citizenship and more satisfactory adjustment by those who use it. The book will reflect the experience and opinions of school board members, the superintendent and the high school faculty.

The period covered in this report has been marked by the friendly and courteous cooperation of all who are charged with the direction and leadership of our youth. For all this my thanks and appreciation are now extended.

Respectfully submitted,

ARTHUR S. ROLLINS,

Superintendent of Schools.

HEADMASTER'S REPORT

To the Superintendent of Schools:

I herewith submit my seventeenth annual report as headmaster of Plymouth High School.

Class 1945

First Honor	Herbert G. Huckins
Second Honor	Edith Annette Clark
Third Honor	Virginia Lee Chase

The graduation exercises were held in the New Auditorium on Friday morning, June fifteenth at 10:00 o'clock. Superintendent Arthur S. Rollins, acting for the Plymouth School Board presented diplomas to the thirteen boys and twenty-five girls of the class.

Diplomas were also awarded to Roger Blaisdell and Leonard N. Gustafson who completed their High School requirements in the U. S. Armed Forces.

New Teachers

Alice Beaubien of Rivier College
Claire Emerson of Colby College

Katherine Kane of Clark University
Winifred Lewis of Middlebury College
Dorothy P. Parker of Keene Teachers College
Margaret Volpe of Worcester Teachers College

These are the new teachers who have come to the school this year. They replaced Dorothy Flint, Sara Huckins, Leroy Jackman, Edith Johnson, Mary-Alyce McCushing, who left to teach in other communities and Louise M. Pulsifer who resigned to be married.

General Shop

Some of the boys who started the work in general shop last year have continued in an advance course, while thirty-five boys of the freshman class elected the work for their first year.

All have learned to do many valuable pieces of work in construction as well as in repairing which should prove useful to them in later life.

Students' Activity Association

The Plymouth High School Activities Association was established this year to promote and finance the various activities of the high school, an organization of, by and for the student body.

Every member of the school is eligible to membership and pays ten cents per week for thirty-two weeks. This entitles him to admission to all home athletic games and parties under the auspices of the association, pays his class and club dues, and his commencement tax.

The executive duties of the association are carried on by a council, composed of four representatives from each of the senior and junior classes, and two each from the sophomore and freshman classes, together with a faculty advisor. These representatives meet, elect their own officers and committees.

There is an Advisory Committee consisting of the Chairman of the School Board, the Superintendent of Schools and the Headmaster (of the High School.)

To the Parent or Guardian

In order that the education of the boys and girls can progress to the best advantage, it is necessary that the parents and school work together.

Report cards are sent out every six weeks for parents' inspection, but at any time by calling at the office, you may find out about the progress your young people are making. You should not keep the boys and girls out of school or have them excused from classes unless it is absolutely necessary. Punctuality in arriving at school and regularity in class attendance are very essential to their welfare and progress.

To the School Board, Superintendent Rollins, the citizens of Plymouth, Teachers, and Pupils of the High School, I extend my hearty and sincere thanks for the support and cooperation which I have received during the past year in my position as Headmaster of Plymouth High School.

Respectfully submitted

CHARLES E. MOORS,

Headmaster.
